Understanding the Problem

(1,0), (0,1)

(1,1), (1,0)

(1,0), (1,1,0)

Program

illegal
do product
Work out simple examples

Draw a problem diagram
2 Devising a Plan

- analogy by the small

(specialization)

- generalize
List the tasks:

1. Write the simplest program (I can) to solve the 3 examples.
1. 输入问题
2. act product 复合
1. Write the simplest program (I can) to solve
2. Do a proof function
3. Take care of input.
